

## Guiding Questions and Feedback Form

On reviewing the flowchart and the rules, please provide feedback on:

Area of Interest	Feedback
At Line 1 in the flow chart, do the opening questions, regarding anticipated work arrangements (inside, outside of the Republic of Ireland or not engaged in practice), for the coming year cover all possible scenarios?	
Does Declaration 5 make clear the two scenarios which would lead to a doctor completing this declaration?	
At Line 3 in the flow chart, is the concept of an “NCHD” understood and as such is the type of Declaration required clear?	
Does this list of HSE hospitals/clinical sites assist or would a catch all statement confirming a doctor works solely for and paid by the HSE be as effective?	
At Line 4 in the flow chart, does the opening question clearly explain this applies to all other types of practice arrangement?	
Is there a practice arrangement which exists which is not covered by the Declarations provided?	
Are there any other comments you have to offer about the processes which support this new requirement?
