

Overseas Practice Declaration

As a medical practitioner registered with the Medical Council of Ireland, I hereby declare that for the period **1st May 2026 to 30th April 2027**, I will not be practising more than a total of 30 days in Ireland. For this reason I reasonably believe there is no reason for the Medical Council to satisfy itself as to the ongoing maintenance of my professional competence as if I were established in the State.

Furthermore, I understand that practising medicine outside the State while retaining registration with the Medical Council does not exempt me from the legal duty under Section 94 of the Medical Practitioners Act 2007 for medical practitioners registered with the Medical Council to maintain professional competence.

I am providing here with evidence of my maintenance of professional competence by way of a statement¹ from an approved regulatory or training body from the country in which I currently practise, pursuant to my legal duty under the Medical Practitioners Act 2007 and in line with Medical Council standards and guidelines. I understand that if I practise medicine more than 30 days in the State, the Medical Council will regard this as being established in Ireland.

¹ **Examples include:**

- Copy of most recent appraisal/revalidation/recertification from an approved regulatory body.
- Individual CPD certificates will not be accepted as evidence of maintenance of professional competence.
