

Payments FAQ's- ARAF 2024

Please note that due to the EU revised Payment Services Directive 2 (PSD2), all online payments within the EEA are now subject to Strong Customer Authentication (SCA). When paying your Annual Retention fee, you will be directed to a separate page to verify your payment.

Please ensure that the cardholder bank has your current mobile phone number and that you have entered this number on the billing page before proceeding to payment. When entering the phone number please enter the area code e.g., "353" and remainder of your mobile number e.g., "87XXXXXXX" in the correct box.

Please also ensure that you are entering the correct cardholder's name, address and Eircode associated with your bank account, depending on the details you are requested to input.

Once you have ensured the above information is correct, please follow the following steps:

- Please login on a laptop or computer
- Please ensure there is no barriers/blocks set up if you are using a work computer or connected via your work Wi-Fi.
- Please log out of applications on all your devices and close all windows.
- Clear all cookies and cache's.
- Please ensure you only use one device when logging into your doctor portal.
- Please ensure you are not using incognito mode or private browsing when access the doctor portal.

Please see below the most common error messages:

Payment Failed – Your payment attempt has failed. Transaction blocked by merchants 3D Secure 2 configuration – authentication failed.

- The cardholder has not entered their details correctly. A 3D secure authentication error could be due to everything from a mistyped card number to an incorrect expiration date. If the error continues, the cardholder will need to contact their credit card issuer for assistance.

Payment Failed – Invalid ORDER_ID field. Not enough characters

- The error message is coming from Realex payments.

Please ensure you are entering the required details as the error message is advising there is not enough characters, which means there is some information missing.

Payment Failed – Your payment attempt has failed. Declined

- Please contact your bank for the verification issue and please ensure you are not using incognito mode or private browsing while attempting to make payment as this does not allow cookies.

Payment Failed – Invalid TX'

- Invalid transaction code and the issuing bank does not accept the transaction.

Please contact your bank and ensure you are not using incognito mode or private browsing while attempting to make payment as this does not allow cookies.

Payment Failed – TX Not Permitted

- Indicates a rejection on the side of the credit card provider for unspecified reasons. It does not necessarily mean that there is an issue with the card, but it does indicate that the bank will not approve this transaction.

You will need to contact your bank for more information.

Payment Failed - EX APPROVAL AMT

- Please contact your bank and ensure you are not using incognito mode or private browsing while attempting to make payment as this does not allow cookies.

Payment Failed – NEG ONLINE DATA

- Please contact your bank to ensure you are not using incognito mode or private browsing while attempting to make payment as this does not allow cookies.
